16th Catalogue of Andalusian Audiovisual Works

Loyal to its commitment to the sector, the Andalusian Public Audiovisual Foundation continues to invest its efforts in what has proved to be a vital tool: the Catalogue of Andalusian Audiovisual Works. Now in its sixteenth edition, this annual publication features the best of the latest Andalusian productions and serves to promote the creativity and technical expertise of the companies and professionals who form part of the region's audiovisual industry.

A complete filmography for the region can also be consulted on Avandalus (www.avandalus.org), the portal for the promotion of Andalusian films and audiovisuals, which lists all the works included in the catalogues published to date as well as a section on international co-production opportunities with details of projects looking for funding or partners.

Some of these projects have since materialised and been included in one of the annual catalogues.

Targeted at sales agents, producers, distributors and anyone interested in learning more about the Andalusian audiovisual industry, the catalogue provides the Andalusian Public Audiovisual Foundation with a tool for pursuing its marketing and internationalisation strategy, which is further reinforced by the support of The Creative Europe programme, the Spanish Institute of Foreign Trade (ICEX), the Federation of Spanish Audiovisual Production Company Associations (Fapae) and the Andalusian Agency of Foreign Promotion (Extenda) at festivals and fairs both in Spain and abroad.

May Silva Ortega
Director of the Andalusian Public Audiovisual Foundation
